

Information on total number of voting rights and shares composing the share capital as at October 31, 2023

Paris, November 3, 2023 – 6.00PM CEST - Pixium Vision (Euronext Growth Paris - FR0011950641 ; Mnemo : ALPIX), a bioelectronic company developing innovative bionic vision systems to allow patients who have lost their sight to lead more independent lives, announces the evolution of its share capital. The number of voting rights and shares composing its share capital as of October 31, 2023 is as follow:

Total voting rights	Total number of shares composing capital
Total real voting rights ⁽¹⁾ 3,343,358	3,365,392 ⁽³⁾
Total theoretical voting rights ⁽²⁾ 3,365,392	

(1): The actual (or net) voting rights correspond to the total number of voting rights exercisable at General Meetings. They are calculated based on the total number of voting rights attached to the total number of shares, less any shares without voting rights (treasury shares, etc.).

(2): Theoretical (or gross) voting rights include all voting rights attached to the shares (including those without voting rights).

(3): Including 2,189,312 new shares from conversion of ORNAN2022 by ESGO Fund.

(4): The total voting rights and the numbers of shares have been adjusted in accordance with the reverse stock split implemented as announced September 20, 2023.

About Pixium Vision

Pixium Vision is creating a world of bionic vision for those who have lost their sight, enabling them to regain visual perception and greater autonomy. Pixium Vision's bionic vision systems are associated with a surgical intervention and a rehabilitation period. Prima System sub-retinal miniature photovoltaic wireless implant is in clinical testing for patients who have lost their sight due to outer retinal degeneration, initially for atrophic dry age-related macular degeneration (dry AMD). Pixium Vision collaborates closely with academic and research partners, including some of the most prestigious vision research institutions in the world, such as Stanford University in California, Institut de la Vision in Paris, Moorfields Eye Hospital in London, Institute of Ocular Microsurgery (IMO) in Barcelona, University hospital in Bonn, and UPMC in Pittsburgh, PA. The company is EN ISO 13485 certified and qualifies as "Entreprise Innovante" by Bpifrance.
